- 6) Participation Contribution to the Conference : My contribution in conference was as presenter of oral Research paper. I had given a power point presentation on my research work entitle **"Development of Protein Rich Cookies Variety Biscuits: Soy Protein Isolate Fortification"** and was useful to the food manufacture producing food product for Malnourished people.

- 7) Outcome from the visit : The Conference helped me to improve my quality as I got opportunity to interact with the people all over the world from different countries. After hearing the presentation of researchers and discussion with delegates, lot of new ideas of research has developed in my mind and I defiantly carryout those things. Whatever I have learnt in the conference, I will share with my students and colleague professors. In this way my students as well as faculty members of my Department & Institute will get benefited. With my presentation in conference World come to know about my University and Institute.
